Housekeeping

Please note that this session is being recorded. By remaining in the meeting, you are consenting to it being recorded.

Please, disable your camera during presentations. Speakers only are invited to turn on their video during their presentation. Activate your camera during Q&A and exchange of experience sessions.

Please, mute your microphone and use the chat box during presentations. Unmute your microphone for questions and comments during Q&A and exchange of experience sessions.

Introduction

What to expect in this series?

- The **ENRIITC** project aims to build a **permanent pan-European network of Industrial Liaison and Contact Officers (ILOs and ICOs)** and enable industry to become a **full partner of research infrastructures** whether it is as a user, a supplier, or a co-creator.
- **ENRIITC your Knowledge** is a series of online training and organisational webinars targeted to experts involved in setting up **collaborations between Research Infrastructures and Industry**, such as **ILO** and **ICO**.
- The overall aim of this webinar series is to **share knowledge, expertise, skills and best practices amongst ILOs and ICOs**.
- ENRIITC project is led by the **European Spallation Source** with **five RIs and five ILO organisations** in the consortium.

Introduction

Scope of the webinar

This **1st ENRIITC your Knowledge webinar**, will be exploring two important roles:

- **ILO (Industry Liaison Officers)**, officially appointed by the member states and associated countries to stimulate the collaboration among the national industry and the international RIs;
- **ICO (Industry Contact Officers)**, research infrastructures staff in charge of developing business relations with all potential industrial suppliers and users.

One of the main goals of the ENRIITC project is paving the way for future synergies and collaborations between these two crucial roles. Different ILOs and ICOs will present their views on their role and key performance indicators.

This should provide the basis for exploiting the full potential of RI-Industry interaction.

Introduction

Our invited speakers

Chris Tieken, EATRIS

Business Development Manager

Chris holds a MSc biomedical sciences and a PhD in tumor biology from Leiden University, the Netherlands. He has had various roles in business development in life sciences.

Since 2018 he leads the business development efforts at EATRIS, forging collaborations between expert academic groups and biotech and pharmaceutical companies to enable early drug development.
