Introduction

What to expect in this series?

• ENRIITC project is led by the European Spallation Source with five RIs and five ILO organisations in the consortium.

• The ENRIITC project aims to build a permanent pan-European network of Industrial Liaison and Contact Officers (ILOs and ICOs) and enable industry to become a full partner of research infrastructures whether it is as a user, a supplier, or a co-creator.

• ENRIITC your Knowledge is a series of online training and organisational webinars targeted to experts involved in setting up collaborations between Research Infrastructures and Industry, such as ILO and ICO.

• The overall aim of this webinar series is to share knowledge, expertise, skills and best practices amongst ILOs and ICOs.
Introduction
Scope of the webinar

During the last year we have seen a heavy trend in events taking place in the digital world, with these new digital dynamics likely to continue in the future.

In this interactive webinar, experts across several RI domains will share their experiences, practical information and insights on how to organise interactive and engaging online events: workshops, and trade fairs coupled with B2B sessions.

Participants have the opportunity to exchange experiences during an interactive session in the second half of this webinar.

Introduction

Our invited speakers

Jorge López Reig – Spanish ILO for ICTS and BSBF 2022 coordinator at CDTI

Jorge is MSc in Aeronautical Engineering and Specialist in Space Vehicles Technologies. Since 2014 affiliated to CDTI E.P.E., the Spanish innovation agency belonging to the Ministry of Science and Innovation whose main mission is to promote and support industrial R&D. Current position in CDTI is ILO for national ICTS and coordinator officer for the BSBF 2022.
**Kurt Burtscher, Co-founder B2Match**

**Kurt** worked 15 years for the Enterprise Europe Network (EEN) as a Company adviser. Kurt realized that Matchmaking events are a proven concept to initiate and establish meaningful connections between companies across borders, with the few available matchmaking tools at the time. This was the starting point of creating a new matchmaking tool truly adapted to the needs of companies, B2Match.

B2Match is used in 800-1000 events a year. B2Match made use of the corona pandemic to switch their on-site meeting platform to a fully virtual networking platform. The future will be somehow hybrid (on-site & remote) and B2Match has prepared for it.
Introduction

Our invited speakers

Anne Charlotte Joubert
ENRIITC Project Coordinator

Anne Charlotte Joubert is a European funding expert with over 10 years of experience in the European landscape. Before joining the European Spallation Source in 2017 as grant officer, she spent most of her career in Brussels as consultant supporting public and private organisations of all sizes accessing financial funding for the development of their business.
